

Programme Information

Lymphoedema Therapy Certification Course

**Thursday 19 October 2017 – Saturday 28 October 2017
(9 day course to include Saturdays)**

**HSC Clinical Education Centre, Clady Villa,
Knockbracken Healthcare Park, Belfast**

Closing Date: Tuesday 15 August 2017

Tutor: Linda Roherty, Klose Training & Consultancy, USA

Purpose:

To enable the delegate to become competent in the assessment and management of lymphoedema (and associated conditions)

Learning Outcomes:

- The delegate will gain a thorough understanding of the anatomy and physiology of the lymphatic system and understand the impact of lymphatic damage/insufficiency on the body
- The delegate will be competent at completing a holistic lymphoedema assessment, understanding and analysing differential diagnosis and therapy contraindications
- The delegate will be able to provide the most suitable management for each patient from simple to complex presentations whilst understanding the individual impact on the patient and their carers
- The delegate will understand the public health impact of, and role required for, activity and weight management, and requirement to liaise with other members of the Multi-professional Team
- The delegate will understand the value of risk reduction education for those deemed as 'at risk' of developing lymphoedema and be aware of strategies to combat
